

## **Annotated Bibliography Assignment**

In preparation for your research paper, your annotated bibliography gives an account of the research that has been undertaken on a given topic. In addition to bibliographic data, an annotated bibliography also provides a concise summary of each source and some assessment of its relevance to your paper.

It is therefore important to define the scope of your research (a problem or research question) so that you can make good judgments about what to include. Please include 10 sources, and ensure that approximately half of them are scholarly journals or books.

### **You are expected to:**

- Identify a substantive issue in social welfare
- Consider the historical context
- Consider the Canadian institutional/policy context
- Refer to the involvement of both state and non-state actors
